

Lutheran Haven receives “Best Christian Workplace” honor!

Recently, the staff of Lutheran Haven was asked to complete a survey from the “Best Workplaces Institute” which is a human resources research & consulting firm that helps organizations improve their workplace culture through employee engagement surveys.

The survey is confidential and is designed to capture honest feedback to determine the emotional engagement of staff and their ability to find meaning and purpose in their work. It’s also a

means to determine how they feel supported and valued by their colleagues and leadership. This information can then be benchmarked against industry standards.

This is where Lutheran Haven shines! **The Haven is now officially certified as a “Best Christian Workplace” for 2026!** Thank you to each of you who work so hard to bless our wonderful residents and one another with your faith, kindness and diligence which makes the Haven the special place that it is to live and work!
